

**VILLAGE OF LAKE ORION  
NOTICE TO WATER CUSTOMERS  
DEAD-END LINE FLUSHING**

THE VILLAGE OF LAKE ORION WATER DEPARTMENT WILL BE CONDUCTING LINE FLUSHING AT ALL THE DEAD-END POINTS WITHIN THE VILLAGE WATER DISTRIBUTION SYSTEM. THIS WILL OCCUR

**October 16, 2023  
Beginning at 4:00 a.m.**

During this time, customers of the Village Water Department may experience low water pressure. Also, the flushing of the water mains may loosen up sediment in the system which in turn may end up at the user end point which is your faucet. Customers are urged to check water clarity before using it for laundry or other similar uses. If you experience rusty to black colored water, flush your water lines with either a wash tub faucet or a bathtub faucet. Flushing your system will clear out any sediment which has made its way to your home.

Thank you for your attention to this matter.

Susan C. Galeczka, CMC, MiPMC  
Village Clerk
