March 30,2020

The Village of Lake Orion to conduct minimum business operations essential to securing life, sanitation health and safety pursuant to Section 6. of the EXECUTIVE ORDER No. 2020-21 issued on March 23, 2020 by the Governor of the State Michigan, Gretchen Whitmer, will have the collection of waste as all types will continue to be provided by GFL Waste Company and Village employees including yard waste. We are requesting that **leaves be bagged** to expedite the collection and minimize any health, sanitation and safety issues regarding vehicles, pedestrians as well as storm water drainage blockages that could lead to flooding.

Your cooperation **to bag the leaves** rather than rake them to the curb line/road edge would be most helpful in keeping street and walking surfaces clear, help reduce any flooding possibilities and more timely collection to minimize physical distancing.

Thank you for your cooperation in this matter.
